ECS Configuration Change Request

CCR No. 96-1141	**Logged Date** 10/1/96	**Rev.** -	**Request Type** CCR

Priority Routine ☐ Urgent ☐ Emergency ☒	**Affected Release**	**Change Class** I I

Title (description) Reconfigure FOS DEC's

Documents Affected	**Source Nos** (RID, NCR, Action Item, GSFC CCR, etc.) **or Tech Reference**

RTM Change ☐   **Start New Baseline** ☐

Problem
FOS has begun to port code to the DEC's, and has found that the FOS DEC's are not consistent on which libraries are installed and/or where the libraries reside. The differences between machines is not determinable and, therefore, each machine needs to be reconfigured. The affected machines are: buster, babs, montana, hamilton, and porky.

Proposed Solution
Provide FOS the root account for these machines and allow FOS to re-install DEC 3.2D on one DEC (buster) as a prototype to determine the correct configuration. Then, FOS will copy this configuration to the other 4 DECs. HTSC (Carlton Campbell) has agreed to support FOS with any issues.
